

1st Fluidised Bed Incineration Plant VILLAS Austria GmbH (Austria 2005-2006)

Project Description:

- ✓ Fluidised bed incinerator for industrial waste and sewage sludge
- ✓ Energy transfer to thermal oil system

Capacity:

- ✓ 2,8 MW fuel heat capacity
- ✓ Emission limits according to Austrian law

Plant Concept:

- ✓ Fluidised bed combustion with boiler and flue gas air pre-heater unit
- ✓ Baghouse filter and existing scrubber with NaOH-dosing station

TBU: approval procedure, basic engineering, detail engineering, supervision of production and commissioning, start-up
