

Fluidised Bed Incineration Plant Höchst for RDF (Germany 2011-2013)

Project Description:

- ✓ Fluidised bed incinerator for RDF
- ✓ Production of electrical energy and steam

Capacity:

- ✓ 3 x 90 MW fuel heat capacity

Plant Concept:

- ✓ Fuel feeding
- ✓ Fluidised bed combustion with SCNR-system
- ✓ Steam boiler
- ✓ Baghouse filter, semi-dry adsorption

TBU: basic engineering for staged combustion and boiler reconstruction (retrofit of EBARA-process), combustion control system
